- b. Tom reads Dietician Sam's advice and decides to change some of his routines. Below are Sam's suggestions for Tom.

Dear Tom,

For a healthy life, kids aged 8 to 13 should get 10 to 12 hours of sleep each night. They should go to bed before 9 pm and wake up before 9 am. Keeping good hygiene is also important. Kids should take a shower at least twice a week and brush their teeth at least twice a day. Physical exercise is very important too. Kids should do activities that keep them moving and active.

First, check Tom's assessment form at the beginning and write down the numbers of Tom's unhealthy habits. Then, rewrite those unhealthy routines, changing them into healthy ones according to Sam's advice.

**Learning Outcome: E8.2.W1. Students will be able to write a short and simple paragraph about regular activities of teenagers.**
