## 7TH GRADERS' 2nd TERM 2nd READING-WRITING EXAM

Name:

Surname:

Score:

A. Read the text and look at the picture. Then answer the questions. (5P x 3 = 15P)

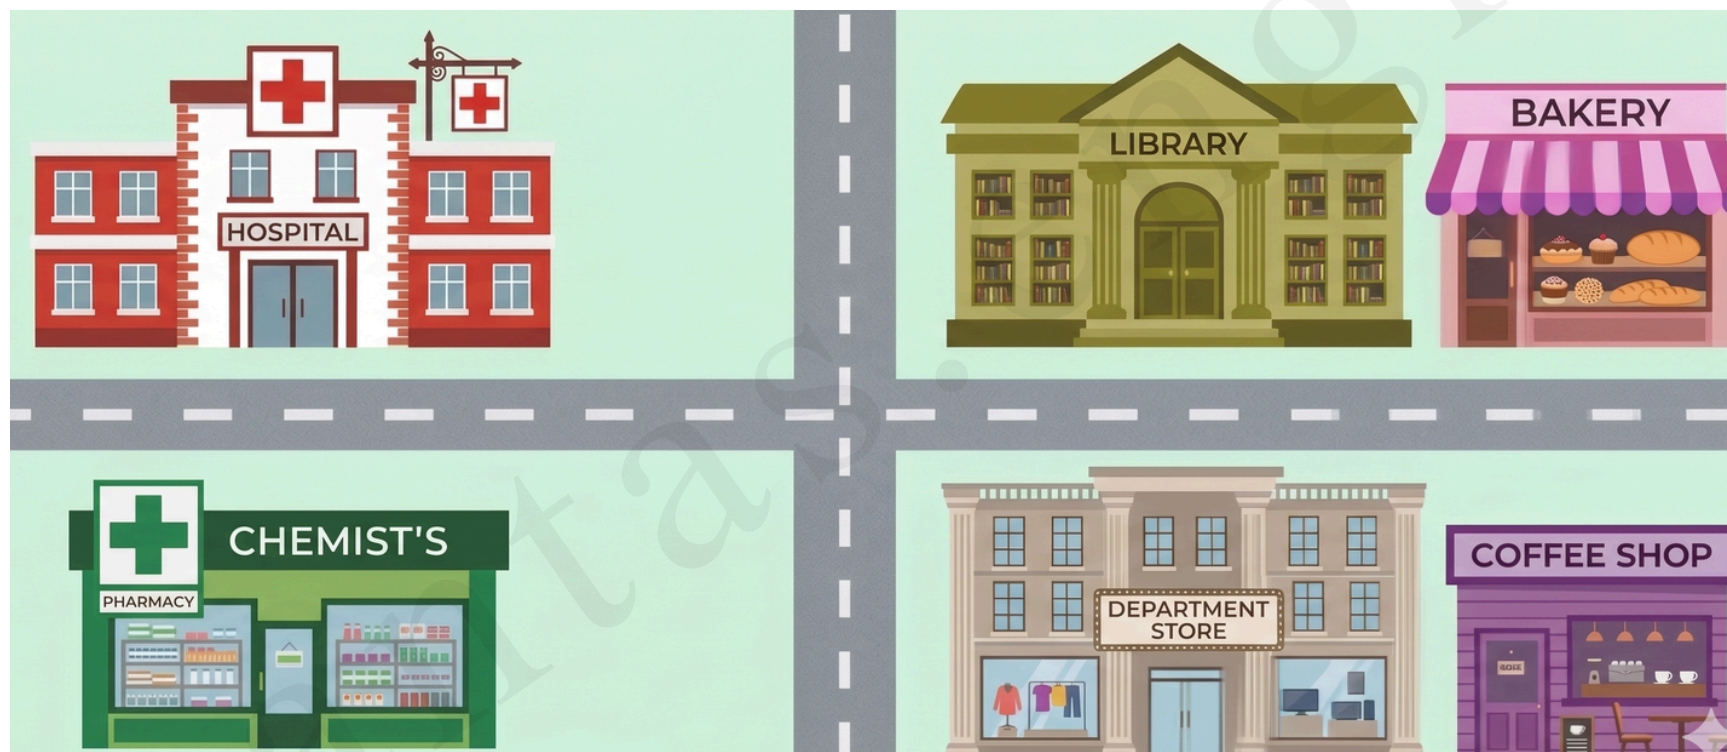

Tomorrow is a very special day. It is my parents 20th wedding anniversary! My sister and I are organising a surprise party for them. I must decorate the living room with colourful balloons and ribbons. My sister is writing a guest list to invite our close relatives and friends. We have also ordered a big chocolate cake from the bakery. Our uncle is bringing a very special gift. We hope our parents will be happy and very surprised!

1. What special event are the children celebrating tomorrow?

2. Mention two things the speaker and his/her sister are doing for the party.

3. Where did they order the cake from?

B. Look at the town map. Read the text and answer the questions. (10P x 2 = 20P)

Last Saturday, Emma was very busy around the town. First, she went to the chemist's to buy some vitamins for her grandfather. Then, she visited the department store to find a dress for her cousin's wedding. After that, she stopped at the bakery to get some fresh bread. Finally, she met her friends at the coffee shop to chat and have a great time.

1. Why did Emma go to the chemist's?

2. Where did she go after the department store?

3. What did Emma buy from bakery? (EXTRA)

C. Look at the picture. Write a sentence using 'to'. Explain what the person is doing there. (10Px1 = 10P)

1.What is this person doing?

D. Read the text and look at the picture. Answer the questions. (5p x 3 = 15P)

Scientists have many exciting predictions for the year 2080. They believe people will live in smart, energy-saving homes. Robots will do all the housework. Flying cars will replace regular cars on the roads, so there won't be any traffic jams. People will probably travel to the Moon or Mars for their summer holidays. Clean energy like solar and wind power will be used everywhere. Life will definitely be very different!

1.What will robots do in the future according to the text?

2.Why won't there be any traffic jams in 2080?

3.What type of energies will use in the future?

E. Look at the poster and read the text. Answer the questions. (10P x 2 = 20P)

Our planet is facing serious environmental problems today. Air pollution and global warming are changing our climate rapidly. To protect our world, we must save energy at home by turning off lights and unplugging devices. We should never use single-use plastic bags because they pollute our oceans and kill sea animals. Planting more trees is also very important because they clean the air and provide us with oxygen. Every small action counts!

1.What shouldn't we use according to the text? Why not?

2.Why is it important to plant more trees?

F. Write four sentences about your predictions for the future. Use 'will' or 'won t'. (5P x 4 = 20P)

1).....

2).....

3).....

4).....
